

LAFTR – Electronic Press Kit

My name is Troy, and I go by LAFTR. I'm a DJ with a focus on tech/deep/bass/minimal house. Born and based Chicago artist with a USB and a dream.

Five years ago, I bought my first DJ controller with no musical background and zero crowd control skills. Thankfully, I had college friends who believed in me and helped build my confidence. While still in school, I started DJing at campus bars and clubs around Kansas City—gaining exposure and unlocking bigger opportunities. Since graduating, I've expanded my network in Chicagoland and become fluent with club-standard gear, easily switching between software, laptops, and controllers. Still, I'll never forget starting out on a \$200 board with a Spotify playlist.
